

Duke Marine Lab
Student Employment Opportunities
Spring 2018

Updated 10/20/17 AK

Listed below are student employment opportunities at the Duke Marine Lab during spring 2018. Interested students MUST contact the supervisors listed directly for additional details or before work.

*** See Patty Nolin (Admin #106, 252-504-7528, pnolin@duke.edu) to get on payroll prior to beginning any work.**

Supervisor: Dan Rittschof (Professor)
Contact: ritt@duke.edu; 252-504-7634
Positions: One or Two
Duties: Various field and lab work available with Dr. Dan's research group. Perform experiments, collect animals, take care of animals, and write-up results.
Hours: Flexible
Pay: \$15/hr depending on experience
Work Study: **Required.** Applicant(s) must be eligible for Duke or Federal work study.

Supervisor: Brian Silliman/Stacy Zhang (Ph.D. student)
Contact: brian.silliman@duke.edu; stacy.zhang@duke.edu
Positions: Two
Duties: Basic lab work, sample processing (counting spartina, seageasses, sediments etc), and some field assistance
Hours: 10/week
Pay: TBA
Work Study:* **Required.** Applicant(s) must be eligible for Duke or Federal work study.

Supervisor: Courtney Edwards
Contact: Courtney.edwards@duke.edu; 252-504-7535
Positions: One
Duties: This student will assist with two administrative projects.
1. Review and organize digital records of previous Duke Marine Lab students to update the Duke University database.
2. Review and organize the marine lab photos, primarily using Adobe Bridge to tag and organize with keywords.
Hours: Flexible; 6-8 hours/week
Pay: \$11/hour
Work Study:* **Required.** Applicant(s) must be eligible for Duke or Federal work study

Supervisor: Doug Nowacek/Jillian Wisse (Ph.D. student)
Contact: jillian.n.wisse@duke.edu; 919-389-0083
Positions: One
Duties: Work on a pilot whale hormone project by assisting in processing and analyzing data

Hours: Flexible; 10 hours/week
Pay: \$12/hour
Work Study:* **Required.** Applicant(s) must be eligible for Duke or Federal work study

Supervisor: Zackary Johnson
Contact: Zackary.johnson@duke.edu; 252-504-7543
Positions: Multiple
Duties: The Johnson Lab broadly studies the abundance, diversity and activity of marine microbes focusing on phytoplankton. This position would support ongoing research focusing on the marine cyanobacteria Prochlorococcus, the most abundant phytoplankton in the open oceans and an excellent model marine microbe. We also have positions as part of our outdoor cultivation of algae for food + fuel (MAGIC) project.
Hours: Flexible
Pay: \$12/hr
Work Study:* **Preferred.** Applicant(s) with Duke or Federal work study award are preferred, others will be considered.

Supervisor: Andy Read (Professor)
Contact: aread@duke.edu, 252-504-7590
Positions: One
Duties: Data entry and cleaning, analyzing dolphin photographs for scars/markings
Hours: Flexible; 6-10 hours/week
Pay: TBA
Work Study:* **Required.** Applicant(s) must be eligible for Duke or Federal work study.

Supervisor: Brian Silliman/Joe Morton (Ph.D. student)
Contact: brian.silliman@duke.edu; joseph.morton@duke.edu
Positions: One or Two
Duties: Assist in monitoring and setting up field experiments, sample processing in lab
Hours: Flexible; 10 hours/week
Pay: \$10/hr
Work Study:* **Required.** Applicant(s) must be eligible for Duke or Federal work study.
