

**Title of project:****Applicant Information:**

Please submit a document listing **\*\*all\*\*** of the following information for **\*\*each\*\*** co-investigator collaborating as part of the proposed project:

- First and Last Name
- Email Address
- Phone Number
- Local Address
- Degree granting program at Duke in which student is enrolled
- Year of study at Duke
- First and last name of primary academic advisor
- Primary department of academic advisor
- Email Address of academic advisor

**Overview:**

In the space below, provide a brief overview of your proposed project in abstract form (250 words)

**Background, Project Objectives, and Methods:**

Please submit a document describing the scientific goal and merit of the project, and how you believe that it will contribute to cross-disciplinary research at Duke. Detail the contributions that each member of the project will make towards its completion.

Briefly describe the expected nature of your collaborative project, including an outline of your proposed research activities and the expected timeline to complete this project.

Please limit to one-two pages maximum.

**Timeline:**

Please give an estimated timeline for the proposed project.

Example:

Instrument deployment: June 2017 - July 2017

Sample collection: August 2017

Laboratory analyses: September 2017

etc...

**Interdisciplinary project justification:**

Briefly justify how this project will serve to embody interdisciplinary research and enhance collaboration across multiple disciplines at Duke (250 words)

**Budget justification:**

Please attach a one page itemized budget justification that includes a detailed breakdown of the expenses that you anticipate using this funding for.

**Curricula vitae:**

Please attach a single PDF file containing current copies of the curricula vitae of all co-investigators participating in the project.

**Letter of support:**

Please provide a copy of the application's letter of support signed by both your advisor and your co-investigator's/investigators' advisor(s), indicating their support of your proposed collaborative project.
