

Nicholas School IT

Our website. Open a support ticket. Contact us first with any help requests and feedback. If there is another group on campus better able to assist you, we'll facilitate.

Nicholas School IT How-To Videos

A growing library of how-to videos. Check back frequently!

Duke Office of Information Technology

The OIT website contains computing and communications information for the entire university. OIT also issues NetIDs and administers and maintains the email system.

New To Duke

General computing information for new graduate students.

Dukeblue

Connect your personal devices to Dukeblue - Duke's secure wireless network.

Virtual Private Network

Access restricted Duke online resources from offsite, including library resources. Choose either the Default or Library options.

Multi-factor Authentication

Multi-factor authentication (MFA) provides an additional layer of security when logging in or performing transactions online. It is required for using [Duke@Work](#) and recommended for other systems.

Office 365 Web Client

Your Duke email account. Use Office 365 for calendaring and email.

Online@Duke

From this site you can access and manage your Duke OIT accounts as well as get answers to questions on IT topics at Duke.

IT Security

Take time to protect yourself from identity theft and computer viruses.

Site License Software

Many software packages are available at reduced or no cost to Duke staff, students and faculty.

ePrint

The Nicholas School participates in OIT's ePrint program. Currently, we offer free color printing to our students in the LSRC and Old Chem.

ePrint Web

Monitor your ePrint usage, check status of ePrint printers around campus.

Duke University CIT

The Center for Instructional Technology is a university-wide initiative focusing on the effective application of information technology in teaching and learning environments. They also administer [Sakai@Duke](#).

DukeALERT

Register for Text Messaging (SMS) for emergency and social alerts from Duke University.

DukeHub

Student Information Services & Systems provides students online access to their personal university records including, grades, class registration, financial aid information and bursar's account information.

Box
