About the NC BREATHE Conference

CleanAIRE NC's annual NC BREATHE Conference brings together a diverse group of North Carolina stakeholders to learn about current issues at the intersection of health, equity, and climate change and, using sound science, make recommendations to decision-makers aimed at protecting those most vulnerable to the health impacts of climate change.

Newsletter Blurb - NC BREATHE Event Announcement

The NC BREATHE 2022 conference will be held on April 7 both online and in-person at Catawba College in Salisbury, North Carolina. The hybrid event will feature a series of panel discussions and distinguished speakers focusing on climate, health, and equity.

Keynote speaker Richard Moore, Co-Chair of the White House Environmental Justice Advisory Council, will kick off NC BREATHE 2022. The event will also host a student poster session to elevate the innovative work being done by young researchers.

Newsletter Blurb - Call for Student Posters Announcement

CleanAIRE NC is soliciting student research presentations on environmental justice, health disparities, climate change, and related public policy topics for NC BREATHE 2022. Posters need not directly relate to all the conference themes, but we do encourage researchers to consider how their work may intersect with them. From the submissions, three student abstract authors will be selected to give a short lightning talk presentation at the conference about their poster and research. The deadline for poster submission is midnight March 14, 2022.

Submit Student Poster >> https://bit.ly/BREATHE22_Posters
