

Welcome back NSOE Earth and Environment Undergraduates!

Please use the [Office of Research Development website](#) to keep up with undergraduate student opportunities. Links in the yellow “Funding Opportunities” box will allow you to view various funding opportunities.

Search for [NSF-funded Research Experience for Undergraduate](#) sites in your area of interest.

Check out [Bass Connections](#), a university-wide program designed to provide both graduate and undergraduate students with greater exposure to inquiry across the disciplines, partnership with unlikely fellow thinkers, sustained mentorship in teams and the chance to experience the intersections of the academy and the broader world.

Keep an eye out for [Stanback Internships](#) – 2022 summer opportunities will be listed soon!

Check out the [Duke Undergraduate Research Office](#) for support and opportunities.

Important reminder that Duke University Career Center has shifted operations from CareerLink to [Handshake](#), so be sure to set-up your account for job and internship listings!

Explore, Discover, Innovate!
